## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 01/30/2010 has been entered.

### ***Response to Amendment***

Claims 1, 7, 9, 11, 13, 15 and 23-24 are pending. Claims 1, 7, 9, 11, 13, 15 and 23-24 were all previously indicated allowable over prior arts. Claims 1, 7, 9, 11, 13 and 23 were rejected under 35 USC 101 in the previous office action. Claim 1, which claims 7, 9, 11, 13, 15 and 23 depends from, is amended in an attempt to overcome the previous 35 USC 101 rejection. The amendment only includes an amendment to change the "method" in the preamble of claim 1 to a "processor-based method" without changing the body of the claim. Claims 15 and 24 remains unchanged from the previous action, which had indicated claims 15 and 24 being allowable over prior arts. Therefore claims 1, 7, 9, 11, 13, 15 and 23-24 remain allowable over prior arts. However, it is determined that the amendment of claim 1 is insufficient to overcome the 35 USC 101 rejection and claims 1, 7, 9, 11, 13 and 23 remain rejected under 35 USC 101.

***Claim Rejections - 35 USC § 101***

2. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 1, 7, 9, 11, 13 and 23 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. The claim is a method claim that does not include any steps of the method being tied to any type of hardware or performing any type of transformation. Even though the amendments filed on 01/30/2010 add the term "processor-based" in the preamble of claim 1, none of the claimed functions in the body of the claim are tied to the use of the processor.

***Allowable Subject Matter***

3. Claims 15 and 24 are allowed.
